Hey,
Today i've discovered the crippled lightbox at the bottom of our site.
Show here: http://83.169.43.105/

What is wrong with that?

Greetings

Hello,

If you open HTML source of your page, you can see that it contains two   tag, it's incorrect. Maybe you have installed some extensions recently which generate this incorrect code.

PS: We have updated 'System - ARI Sexy Lightbox Anywhere' and 'System - ARI Sexy Thumbnails' plugins that these can work in this case. You can download it in 'Member Area' on our site, but we recommend to fix issue with incorrect HTML code.

Hey,

Ok i've updated the plugin and now the bottom is clear.
But what do you mean with the body tags?

Hello,

A HTML document should contain only one   tags pair, but if you open your site in a browser and click view HTML source of page, you can see that you page contains   tags pair twice.
