# plugin markup showing as plain text

Posted by thinkshovels - 2014/02/14 04:28

---

Hi,

I am having trouble getting ari lightbox to work on some pages with :

{arisexylightbox activeType="article" width="500" height="450" id="97" title="Article"}
Show article
{/arisexylightbox}

For example: http://sbghc.thinkshovels.com/dm/index.php/mmse , instead of processing the plugin, it is displaying as text.

Hello,

Check that "System - ARI Sexy Lightbox Anywhere" plugin is enabled. Set also "Mode" parameter to "Anywhere".

Regards,
ARI Soft

Beauty! Thanks for the quick response, that took care of it for me.

Nice work! :)
