
Thumbnails Are Not Responsive

Posted by darrensvideo - 2014/03/12 03:49

I have installed ARI sexy lightbox on my home page with a gallery containing 9 images and whenever I put the monitor screen in responsive mode the thumbnails compress and distort.

Is this a solvable problem?

Thanks,

=====

Hello,

Add the following CSS rules to a site template CSS file:

```
TABLE.asexy-table
```

```
{  
  table-layout: fixed;  
}
```

```
TABLE.asexy-table IMG
```

```
{  
  height: auto;  
}
```

Regards,
ARI Soft

ARI soft,

My gallery is now responsive with your advice.

Thank you,
Darren
