## How to use descrFile?

Posted by blaci - 2010/06/16 20:17

---

Hi!

I'd like to use descrFile parameter in this code, but I think it's not working

{arisexylightbox activeType="imglist" dir="images/test" type="customtext" descrFile="images/test/1.csv"}{/arisexylightbox}

Here is the csv:

"kovacs_andras.jpg","KovÐ±cs AndrÐ±s"
"mate_bence_1.jpg","MÐ±tÐ¹ Bence"
"mate_bence_2.jpg","MÐ±tÐ¹ Bence 2"

There are five file in the test folder:

kovacs_andras.jpg
mate_bence_1.jpg
mate_bence_2.jpg
thumb.jpg
1.csv

What's wrong? Could you help me?

Thank you very much!

Blaci

Hello,

It seems you have missed column names on the first row. In other words, CSV file should look like:

"File","Title"
"kovacs_andras.jpg","KovÐ±cs AndrÐ±s"
"mate_bence_1.jpg","MÐ±tÐ¹ Bence"
"mate_bence_2.jpg","MÐ±tÐ¹ Bence 2"

Regards,
ARI Soft

Could you provide temporary access to your Joomla! backend by email and say page where you try to use the module that we can investigate this issue and find problem?

Regards,
ARI Soft

---

Try now, please. This problem was with descrFile parameter. It should contain relative path to CSV file relative to the directory with images.

Regards,
ARI Soft

Fine! It works when I turn off mmBackground plugin.

Is it possible to works these plugins together?

Thanks you!

Works fine! Thank you very much!

Can I download the modified install files?

Thanks!

Hi,

Was this resolved for you? If so, how?

I have the following csv file in images/stories/unipart/unipart_desc.csv
"File","Title"
"SS-2010-11-04_09.04.10.png","Stock maintenance and setup screen"
"SS-2010-11-04_09.05.47.png","Outstanding Purchase Orders report"
"SS-2010-11-04_09.07.47.png","Stock catalog lookup and enquiry screen"
"SS-2010-11-04_09.13.35.png","Stock receipt enquiry screen"
"SS-2010-11-04_09.14.34.png","Formatted multi-branch trial balance report"
"SS-2010-11-04_09.18.01.png","Multi-branch income statement"
"SS-2010-11-04_09.19.56.png","Invoice creation screen"
"SS-2010-11-04_09.21.45.png","Purcahse Order creation screen"
"SS-2010-11-04_09.25.04.png","PDF version of invoice"
"SS-2010-11-04_09.27.41.png","PDF version of statement"

and the following code in my page:
{arisexylightbox activeType="imglist" dir="images/stories/unipart" type="gallery"
descrFile="/images/stories/unipart/unipart_desc.csv"}{/arisexylightbox}

but descriptions won't display.

Raymond

Hello,

Use the following code:

{arisexylightbox activeType="imglist" dir="images/stories/unipart" type="gallery"
descrFile="unipart_desc.csv"}{/arisexylightbox}

In other words specify only file name, not full path to description file.

Regards,
ARI Soft

Hi,

Thanks for the reply. I have tried that, but still nothing.

## Re:How to use descrFile?

Posted by admin - 2010/11/05 09:36

---

Try now please. This problem occurred because file names are case sensitive. Your images has prefix "ss", but you used "SS" in CSV file because the module didn't show titles.

Regards,
ARI Soft
