Posted by mattcurtis11 - 2014/06/10 15:16

Hello,

I can get the YouTube video to play in the light box, but is it possible to have the video play automatically when it pops up in the light box? Please let me know what I need to add/change to the code.....below is the code I am currently using.

```
{arisexylightbox activeType="rcontent" width="800" height="450"
url="http://www.youtube.com/watch?v=KfV0ODQemnM" title="Video"} Can-Am Spyder Trailer Video {/arisexylightbox}
```

Thanks!
Matt
