
No Link to gallery-lightbox, only text

Posted by freakmac5 - 2014/06/30 17:23

Hello,

I've added some SexyLightbox-Anywhere-code into an CCK-template, which creates an article.
I would like to display a short gallery with the lightbox, by clicking on the word "Galerie", but the word isn't displayed as a link and so nothing happens if I click on it.

Here's the code of the gallery:

```
{arisexylightbox activeType="imglist" dir="media/articles/productions/gallery" type="customtext"}Galerie{/arisexylightbox}
```

and here the code of the complete cck-template:

```
{hide-if-empty title}  
{title:value}
```

Â

```
{hide-if-empty image}  
{CBImageScale open: true; field: image; width: 200}  
{/hide} {hide-if-empty trailer}  
{arisexylightbox activeType="icontent" width="300" height="250" link="Trailer" title="{title:value}"}{CBVideo field: trailer;  
type: local_player;}{/arisexylightbox}  
{/hide} {hide-if-empty gallery}  
{arisexylightbox activeType="imglist" dir="media/articles/productions/gallery" type="customtext"}Galerie{/arisexylightbox}  
{/hide}  
{hide-if-empty text}
```

Beschreibung:

```
{text:value}
```

```
{/hide} {hide-if-empty details}
```

Details:

```
{details:value}
```

```
{/hide}
```

```
{/hide}
```

As you can see, I have also added a lightbox with an InlineContent and this one is working perfectly.
If I delete the part type="custom text" , the images of the directory will be displayed in the article an the lightbox is going to pop up if I click on an image-thumb, but I don't won't the images shown in the article. What am I doing wrong?

=====

Hello,

The code works fine for us. Could you provide a link to a page where the problem occurs?

Regards,
ARI Soft

Hey, thanks for the quick answer.

Here is a link to the page:

<http://filmfabrik.net/joomla/index.php/de/productions-cologne-de>

Regards, Alex

Hello,

Set "Load jQuery method" parameter to "Local copy" in module and plugins settings from "ARI Sexy Lightbox" package.

Regards,
ARI Soft

A very big thank you.
It's working perfectly now.

Best regards,
Alex
