PDF dokumenter i lightbox in a article in joomla
Posted by maalfoto - 2014/09/25 13:15

_____

Hey.
I'm about to put a PDF document on my joomla website and would like to have it in an article as a link so that it opens in a Lightbox when clicked on it.

But when I want to link it up in my artkel and using link button in the JCE editor, I can not find the command in the tab "Class List"?

Is this not the correct way to do it, or do you write a code in HTML to use lightbox in articles?

Regards
