Need to hide title \"Articles\" in Lightbox - Urgent

Posted by aymesvida - 2014/12/18 05:24

_____

I am trying to figure out how to hide the title when displaying an article in the Lightbox. It has been disabled in the template and does not display on the article page when viewed on it's own, but when the same article is displayed in the lightbox, it displays the word "Articles". I need to hide it. I cannot do it in the template CSS because it will hide all titles for all pages. I have attached a screenshot.
Please advise.
Thank you

_____

Hello,

This title is added by Joomla!, you can remove it if set JGLOBAL_ARTICLES parameter to empty value in /language/en-GB/en-GB.ini file.

Regards,
ARI Soft
