responsiveness of sexylightbox
Posted by dtws2008 - 2015/07/29 10:00

_____

I use sexylightbox plugin in ARI smart content in conjunction with datatables. datatables is responsive but what about sexylightbox? it seems that it is not responsive. Am I doing something wrong?

_____

Hello,

"ARI Sexy Lightbox" supports ability to set "width" and "height" parameters in percent, but it doesn't change lightbox size if browser's windows is resized when a lightbox is opened.

"Fancybox" addon is fully responsive.

Regards,
ARI Soft
