Change Thumb directory Posted by DanielSw2 - 2010/07/29 14:31
Hey there,
I saw that the Thumbs from our Images are saved in the Joomla Chache. But I want that the Thumbs are saved in the same directory. For example: mysims/bilder/screenshots/thumbs
Here can you see the gallery in action: http://simway.net/mysims-nintendo-wii-bilder
Thank you and best Regards, Daniel

No solution for this?
Re: Change Thumb directory Posted by admin - 2010/08/07 15:48
We'll implement this feature in a future release.
Regards, ARI Soft
