Change Thumb directory

Posted by DanielSw2 - 2010/07/29 14:31

_____

Hey there,

I saw that the Thumbs from our Images are saved in the Joomla Chache. But I want that the Thumbs are saved in the same directory. For example: mysims/bilder/screenshots/thumbs

Here can you see the gallery in action: http://simway.net/mysims-nintendo-wii-bilder

Thank you and best Regards,
Daniel

_____

We'll implement this feature in a future release.

Regards,
ARI Soft
