Hello,

If you use 'ARI Sexy Lightbox' module, set 'Simple Gallery -> Show Title' parameter to 'No'. If you use 'System - ARI Sexy Lightbox Anywhere' plugin, add showTitle="0" attribute to {arisexylightbox} tag.

hi! I'm using the lightbox that comes with Smart Content - Fancy lightbox - I would actually like to add a different title under the thumbnail (Fig. 1A) and a more detailed title in the popup - is this possible?

I also just installed ARI Sexy Lightbox light - and it is not showing the title under the thumbnail at all - please help me to get at least a title under the thumb in one or the other of these. Thanks!

Hello,

You can do it with help 'ARI JFancybox' plugin from 'ARI Smart Content' extension only if use it for each image one by one. It isn't possible if you want to do it for all images from folder(s). What code do you use for 'ARI Sexy Lightbox Lite'?
