Ari Sexy Lightbox in Joomla Administrator Back-end

Posted by adondan - 2010/08/25 07:59

Hello,

Thank you for a wonderful plug-in!

Just a quick question, is there any way to integrate the plug-in to work in the "administrator template" (joomla back-end)?

Thanks again,

Dan

Hello,

Could you explain in what way you want to use it on Joomla! backend?

Regards,
ARI Soft
