Allvideo - title in front of youtube playcontrols

Posted by dick - 2011/10/04 12:15

_____

I just bought Colorbox and I'm loving it until now! But when adding a youtube video in a Colorbox popup the 'title' is exactly in front of the youtube controls. Changing the height of the colorbox will only add black on top and bottom of the video (letterboxed).

Does anyone ever realised this problem? Any sollutions on this?

;) Dick

Hello,

Could you provide a link to a page where we can see the problem?

Sorry, I could think of that myself of course...

Here you can find the video, only look at the upper video, the videoclip New York.

Here is the html code:

Hello,

Open /modules/mod_aricolorbox/includes/js/themes/white_black/colorbox.css file and try to change the next CSS rule:

#cboxLoadedContent iframe{display:block; width:100%; height:100%; border:0;}

with the following CSS rule:

#cboxLoadedContent iframe{display:block; border:0;}
