
Colorbox Module

Posted by niesomaticus - 2014/04/01 10:47

Hello,

I get an error message when I try to configure the colorbox module and save it. After saving for example the directories of my files (images/mycontent) will not be saved.

On the page where the module is shown I get the errors

Notice: Undefined index: fileFilter in

modules/mod_aricolorbox/includes/kernel/Module/Providers/class.ThumbnailProvider.php on line 367

Notice: Undefined index: simplegallery in

modules/mod_aricolorbox/includes/kernel/Module/Providers/class.ThumbnailProvider.php on line 379

Can you tell me what's the reason for these messages? :blush:

Regards

Hello,

Check that "System - ARI Extensions" plugin is installed and enabled.

Regards,

ARI Soft
