aricolorboxanywhere plugin
Posted by Marsm - 2016/06/27 19:13
_____

Hi,

after updating ari colorbox to 1.9.8 the colorbox anywhere plugin gives problems, probably in combination with my AriQuiz version . Html code is appearing in top of page. There was no problem before updating.

To see the problem go to quiz page.

Temp login:

name: test
Pass: ***

Any idea how to solve this problem?

Regards,
Marsm

Hello,

Could you provide a temporary access to your J! backend by email so we can investigate the problem?

Regards,
ARI Soft

Hello,

I now have the same problem on another site. I tried to update the aricolorboxanywhere plugin but this didn't help. Can you tell me how to update the aricolorboxanywhere plugin as you did for my other site?

Problem can be seen here.

Regards
