Templates for gallery

Posted by ghuber - 2010/09/18 05:33

_____

The last thing I'm really missing are good templates for the gallery. Right now there are 3 layout types included but without CSS knowledge you are lost and will never get a good looking gallery.

Simple Image Gallery Pro makes it very easy for beginners with a few basic layouts. With little css/html knowledge you can modify the templates and then you can use these gallery templates for every joomla template.

I searched the web for professional gallery layouts and this was the best I found:
CSS Decorative Gallery

There are a lot of gallery extensions for joomla available but I didn't find any with good preinstalled templates. This feature would be a big step forward and I hope it can be realized.

Thanks http://www.ari-soft.com/images/fbfiles/images/01-f209c46b6f434340b4d58936bc471756.jpg

Hello,

We are going to implement this ability and suppose it will be available within 1 week, but one note templates which you provided aren't generic. It can be used only for fixed image size.

Regards,
ARI Soft

_____

Hello,

'ARI Colorbox' v. 1.5.0 contains new parameter called 'Theme' for 'Simple Gallery' layout type which provides possibility to choose one of available predefined themes.

_____

Thanks a lot.

Is there an easy way to create own themes? I don't like the gallery function which is used in Mosets Tree. Therefore I'd like to use Colorbox instead but I need the same theme which is used in the Mosets template.

Here is an example how it should look like:

```
.listing-summary img.image {
 border: 1px solid #ccc;
 margin: 0 10px 10px 5px;
 padding: 5px;
 float: left;
 display:block;
 }
```

```
.listing-summary a:hover img.image{
 background-color: #e5e5e5;
 border: 1px solid #e5e5e5;
}
```

Or could you add this theme?

Thanks

_____

Hello,

Sorry for the delay, we will add new theme within 2- 3 days.

Regards,
ARI Soft

_____

Hello,

We have updated the extension. New version contains new theme "Fancy" which looks like on your demo page.
Download extension package and upgrade "ARI Colorbox" module and "System - ARI Colorbox Anywhere" plugin.

PS: You can see new gallery theme on our extension's demo page.

Regards,
ARI Soft
