ARI Pretty Photo not working with ARI Ext Menu

I'm using ARI Ext Menu Module as my Joomla Main Menu, and it works fine.

Recently I bought ARI Pretty Photo, but when I enabled the ARI Pretty Photo,
it show error message:

Fatal error: Class 'AriJoomlaBridge' not found in
/home/xxxxxx/public_html/modules/mod_ariextmenu/mod_ariextmenu/kernel/Document/class.DocumentHelper.php on
line 85

Is there anything wrong?
Ho am I supposed to do?

Thank you,

Chris
