
Alt tag for thumbs ?

Posted by guyman95 - 2011/08/14 13:10

Hi,

Could you tell me how to set an alt tag for thumbs displayed in the article (I am using my own thumbnails).

I am using to generate thumbnails...

Thanks

Hello,

Do you use the module or plugin? If you use plugin what code do you use? Do you show images from your server or from Picasa or Flickr?

Regards,
ARI Soft

Hi,

I am using the module with images from my server.

Regards

CSV file with title can be used. Link to sample of CSV file can be found "Description" field on module settings page. CSV file with description should be located in folder with images.
