I have an image in my content article that I would like to link and upon click, open a gallery of photos in a specified folder. Could you please post the code to do this?

Hello,

You can use the next code for "System - ARI Pretty Photo Anywhere" plugin:

{ariprettyphoto activeType="imglist" dir="photos/album1;photos/album2" type="customtext"}{/ariprettyphoto}

Where LINK_TO_IMAGE is a link to an image.

Regards,
ARI Soft
