
Text Link to gallery? On K2?

Posted by hdwebpros - 2012/05/02 15:44

I'm actually trying to integrate 2 galleries per item on K2. I was hoping I could install ARI Pretty Photo, and link to each gallery using just a text link. Is this possible? If so, how?

Hello,

Do you want to show images from folder(s) into the lightbox when a user click by a link?

Regards,
ARI Soft

You can use "System - ARI Pretty Photo Anywhere" plugin. For this set "Mode" parameter to "Anywhere" and use the next plugin code in a K2 item:

```
{ariprettyphoto activeType="imglist" dir="images/photos" thumbWidth="100" type="customtext"}Show  
gallery{/ariprettyphoto}
```

Regards,
ARI Soft
