Hello,

Download and upgrade the module. New version of the module supports ability to sort images by a CSV file. For this set "Image gallery -> Sort by" parameter to "CSV".

Thank you very much! I'll do it right now.

I know it's not related but since i'm here, how can i decide to align the title under the preview image at the center?

Add the next CSS rule to a site template CSS file:

TABLE TR.odd TD DIV,
TABLE TR.even TD DIV

```
{
 text-align: center;
}
```
