Hi all,
how can i remove the filenames in the gallery? It's a picasa webgallery. I turned "show titel" off in den module - but it has no effect... The example: http://www.schatzl-air.de/index.php/fotos/tandemfliegen-am-brauneck

thx to all,
robin

Hello,

Add the next CSS rule to a site template CSS file:

```
TABLE.prettyphoto-simple-table DIV.apretty-title
{
 display: none
}
```
