Pretty Photo stops working in https

Posted by micthemouse - 2016/12/14 01:20

_____

We are trying to switch our site to SSL https. Now when I click on the gallery link for pretty photo it just opens a single image and does not run the lightbox.

Is there some setting that needs to be changed or is there something else that needs to be done?

I have attached screen shots.

Thanks for any help.

_____

Hello,

Download and update "ARI Pretty Photo" module.

Regards,
ARI Soft
