
Theme does not working

Posted by ccamelot - 2010/09/08 18:29

Hi,
I'm trying to use it on my site without any luck. How to use it with VirtueMart? I'm still getting this error: "Result of expression '\$("a").prettyPhoto' is not a function." VirtueMart default lightbox is disabled. Additionally I'm using superfish menus on the page (jQuery). Any advice?

thanks
Leszek

Hello,

Could you provide link to page where we can see this issue?

Regards,
ARI Soft
