Need code example for pop up module automatically

Posted by alexmartin - 2010/10/06 18:41

_____

I have ari smart content component.

I need to show my video module in pop up automatically when page is loaded

What is example code can be?

Thank you.

_____

Hello,

ARI Pretty Photo and ARI Smart Content are two different extension. ARI Smart Content doesn't contain ARI Pretty Photo and doesn't provide possibility to auto open popup.

Regards,
ARI Soft
