linking a text to prettyphoto

Posted by eliecer - 2010/12/25 19:23

Hi,

If I link a text to prettyphoto (using youtube video), I can play the youtube video but it's showing the following text: undefined.

How can I remove or change that text?

EXAMPLE:
- Go to http://www.virtualbc.ca
- Select Movies / Cinemas
- Click on any of the hotspots located on the map
- Click on top of the picture
- Click on the word: trailer

==========

Hello,

Could you provide temporary access to your Joomla! backend by email that we can investigate this issue?

Regards,
ARI Soft
