
Title postion on top

Posted by edtheartist - 2011/03/21 21:31

Hi everyone / Admin -

Wonder if there's a simple way to put the title on top of the fancybox? Currently it seems it can only be under. I'm talking about when it's outside.

thanks
Edwin

Hello,

Add the next CSS rule to site template CSS file:

```
#fancybox-title
{
  bottom: auto !important;
  top: -40px !important;
}
```

Regards,
ARI Soft
