Errors using ARI Fancybox for Joomla 1.6

Posted by mackonly - 2011/03/25 15:37

Hi,

I'm using Joomla 1.6 with the version ARI Fancybox for Joomla 1.6 plugins, but it's not working I'm getting some errors messages as follow below:

First Message on the top of everypages:
Notice: Undefined property: plgSystemArifancybox::$_assetsLoaded in
/srv/www/lighttpd/plugins/system/arifancybox/arifancybox.php on line 85

Fatal Error when I enable arifancyboxlinks, this error does not allow access to any page (front/back end):
Fatal error: Call to a member function isAdmin() on a non-object in
/srv/www/lighttpd/plugins/system/arifancyboxlinks/arifancyboxlinks.php on line 6

Thank you

Hello,

We have updated the plugins. Try now please.

Regards,
ARI Soft
