Hello dear ARI team

I have a problem with the fancy box. when I use the code "{arifancybox active type =" rcontent "opt_width =" 300 "opt_height =" 250 "url =" http://www.google.com "link =" Show google site "title =" Google "} {/ arifancybox} ", it opens me the link to a new page and not in a fancy box. The plugin is activated! I need help!

Hello,

Could you provide link to page where we can see the problem? It can be a conflict with a 3rd party extension.

Regards,
ARI Soft

Hello,

The problem with your site template and plugin settings. Disable "Content - ARI Sexy Lightbox Lite" plugin, then open "System - ARI Sexy Lightbox Anywhere" plugin settings, set "Include jQuery" parameter to "No" and set "Mode" parameter to "Anywhere". It should help.

_____

We have installed "ARI jQuery Integration" plugin to load jQuery and disable jQuery loading in site template and "ARI Sexy Lightbox".
