## How can I change the color of the white box?

Posted by andersonannem - 2012/03/27 17:55

---

Hello.

Great set of plugin's.

But how do I either change the color of the white box or hide it? I need to display videos on black.

Thank you.

Anne

Hello.

Here is a link: [http://rummeles.info/index.php?option=com\\_content&view=article&id=76&Itemid=143](http://rummeles.info/index.php?option=com_content&view=article&id=76&Itemid=143)

When you go to this page, in the center of the page is the word "Rummeles". Click on Rummeles.

The fancy box comes up with a video in it.

The border around the video is white.

Actually, I would like to know how to do two things:

1. Change the white color of the border (probably better described as a background) to black.
2. Have zero border (I tried setting the padding and margin both to zero, but there was always some white remaining under the "X" to close.

Thanks!

Hello,

Add the next CSS rule to a site template CSS file to change background color:

```
body #fancybox-content
{
border-color: #000;
}
```

---

Padding can be changed on plugin (module) settings page. See "Padding" parameter.

Thank you.

That worked great!

Cheers!
