
Disable navigation with multiple arifancybox

Posted by nerthase - 2012/07/07 08:29

Hi all,

I have two arifancybox that point to a Joomla Article.

I have disabled "Navigation Arrow" in global settings, but if I scroll to the bottom of first lightbox, I see a white screen and then back to the article.

This is my code:

```
{arifancybox activeType="article" opt_width="800" opt_height="600" id="97" title="Article"}  
First Link  
{/arifancybox}
```

```
{arifancybox activeType="article" opt_width="800" opt_height="600" id="71" title="Article"}  
Second Link  
{/arifancybox}
```

=====

Hello,

Could you provide a link to a page where we can see the problem?

Regards,
ARI Soft
