Use ARI Fancybox to show any isolated image

Posted by mackonly - 2010/07/23 19:22

_____

Hi,

I bought Joomla ARI Fancybox, and I liked the product so much. Now I'm needing to do something different, and I'd like to know if it's possible, imagine the situation, I have one image as below:

And when someone click in this link, I'd like to call ARI fancybox to show this image. I just found instructions to show a gallery images (from any directory), but not to show a image isolated like this, is it possible? If yes, how can I do this?

Thank you

Hello,

'System - ARI Fancybox' plugin can be used for this purpose. It's included into 'ARI Fancybox' package. Install and enable this plugin. After this the following code can be used:

Hi,

I'm installed the version of ARI FAncybox for Joomla 1.6 and I did all the instructions of installation and recomendations you said above, to show any isolate image with ARI Fancybox Anywhere, but it's not working as you can see in the link:

http://docs.dfe.mastersaf.com.br/89-instalacao-da-aplicacao/instalacao-do-portal/instalacao-do-portal-no-weblogic/69-instalacao-do-portal-no-weblogic

Please click in the first printscreen.

What might be? Tks

_____

Hello,

Check that "System - ARI Fancybox" plugin is installed and enabled. If it doesn't help, could you provide temporary access to your Joomla! backend by email that we can investigate the problem?

Regards,
ARI Soft
