## Inline content from an image (Fancybox Anywhere)

Posted by pnteixeira - 2010/07/31 04:41

---

Hello!

I was wondering if it is possible to insert an image on an article as the link to show inline content.

I've tried several possibilities, like:

```
{arifancybox activeType="icontent" opt_width="300" opt_height="250" link="images/stories/image.jpg" title="Hidden text"}Inline content which you want to show in fancybox goes here.{/arifancybox}
```

but no luck.

Any help would be appreciated.

Hello,

The following code can be used:

```
{arifancybox activeType="icontent" title="Hidden text"}{link}
```
