Embedd image facybox in an article. Posted by alisamii - 2010/08/04 21:12
Hi:
I am trying to embed a single image in an article and have it link to a fancybox (auto width/height).
I have enclosed the code in a so that I can float it to the right and set the size of the div to 200 px.
The code I am using is:
{arifancybox activeType="imglist" dir="images/stories/vos_idees/hameau" thumbWidth=190 thumbHeight=124}{/arifancybox}
It doesn't show up.
Can you tell me what I have done wrong and provide me with the proper code.
Thanks,
Ali Samii

Hello,
This code is working fine for us. Could you provide link to page where we can see this issue? Or could you check error log of web server maybe it contains some PHP errors?
Regards, ARI Soft

Please give me an email address, I will create a username and password for you so you can access the back end (also because the page is viewable by registered users only.
Re:Embedd image facybox in an article. Posted by alisamii - 2010/08/05 09:35
Hi:
I am still waiting on receiving your email so I may add a user account for you to be able to access the backend.
