Tutorials?

Posted by WINEMAN - 2010/09/05 07:43

_____

Just purchased this and am really excited to start using it.

Where can I find a tutorial on how to use it? B)

_____

Hello,

Unzip arifancybox_unzip_first.zip archive and read readme.txt file, please. Detailed instructions how to use module and plugin you can find in 'Description' field on module or plugin settings page.

Regards,
ARI Soft

_____

I appreciate the quick response and I did see the readme file.
I was hoping that you actually had a tutorial to visually show us amateurs how it's done.

For example, I understand that it is best to have the plugin point to the module and that the module will handle the parameters. But, do we need to "enable" the module? And, if so, to which position must we enable it?

_____

If you want to load module with help of the plugin and don't want to load this module into module position, enable the module and set 'Menu Assignment -> Menus' parameter in module settings to 'None'.
