Random transition

Posted by Smitan - 2011/01/17 14:54

_____

Hi, is it possible to have a 'random' to the transitions? They appear always in the same order and it would be nice if the order was random or the possibility to choose between random yes/no.
Gr Hans

_____

The module provide ability what effects from available 54 effects will be used. The extension uses it one by one.

_____

Thanks for your reply.I know, but not in a random order, always in the same sequence.
My customer prefers a random order.
Regards Hans

_____

Download and upgrade "ARI Image SlideShow" module. New version contains new parameter "Random effects" which provide ability to use selected transition effects in random order.

Hi folks, this is just great, superservice. I'll install it immediately.
Thanks, Hans
