ARI Slideshow Module Class Suffix Modification

Posted by mariposa - 2011/05/19 11:52

_____

Hi. How do I apply a "-blank" Module Class Suffix to this module?

I do not see any advance parameters in the backend for this module for this option.

I would like to place this module anywhere on my website with the option of changing the Module Class Suffix setting.

Thanks in advance! :)

_____

Hello,

We have updated the module and added support of CSS class suffix. Download and upgrade the module please.

Regards,
ARI Soft
