
Special characters Ð´, Ñœ, Ñ† not working

Posted by mojorisin - 2011/09/12 12:41

Hey guys,

I'm working with a german website and therefore I need to include the german special characters Ð´, Ñœ, Ñ† in the slide description. In the front-end this results in a ý?

Is there a way to fix this?

Hello,

Do you save INI file in UTF-8 encoding?

Regards,
ARI Soft

Special characters Ð´, Ñœ, Ñ† not working

Posted by diaetazubi - 2011/12/04 08:43

Hello,

i have unfortunately the same problem.

Try anything in /language/overrides and /modules/mod_aridatatables.xml and /help/en-GB/help.html and i create de-DE.override.ini but nothing works :(

Can u explain which folder or file i must change?

Thank you very much.

Joe

Hello,

Do you use "ARI Image SlideShow", "ARI Image Slider" or "ARI Data Tables"? Where are the symbols shown incorrectly?

Regards,
ARI Soft

Re:Special characters Đ, Ñ, Ñ not working

Posted by diaetazubi - 2011/12/04 08:55

I use Ari Data Tables and the problem is only in table. <http://www.ari-soft.com/images/fbfiles/images/problem-b1594968c42f76f390a5d7c8ce1b5e23.jpg>

Posted by admin - 2011/12/04 08:58

Does this table contain data from a CSV file or a database?

Regards,
ARI Soft

Re:Special characters Đ, Ñ, Ñ not working

Posted by diaetazubi - 2011/12/04 09:36

I use .csv file. Should i test it with database?
I debug my site and find no mistakes in language from ari data table (in other modules i have mistakes).

Save CSV file in UTF-8 encoding or specify encoding of CSV file in "CSV -> File encoding" parameter.

Regards,
ARI Soft

Re:Special characters Đ, Ñ, Ñ not working

Posted by diaetazubi - 2011/12/06 12:59

It was a problem with ms-excel.

Save file with excel as csv file. Than save it again with editor under utf8.

Not the best way, but it works.

Thank you.

Hello I am having the same trouble with special caracter Ã³ or Ã¡;
this is the ariimageslider.es-ES.ini file

04-seguridadyvigilancia.jpg=DiagnÃ³sticos de seguridad integral

Re:Special characters ?, ?, ? not working

Posted by admin - 2012/11/07 07:27

Hello,

Where we can see the problem?

Regards,
ARI Soft

webcr.info, is the 4 image, the one with the headset

Re:Special characters ?, ?, ? not working

Posted by admin - 2012/11/07 16:37

Image caption doesn't contain special characters. Where we can see the problem with special characters and what path to INI file?

Regards,
ARI Soft

Your INI file has an incorrect format. &iactue; HTML is also incorrect, it seems you need Ã- entity. Place the following content to INI file and save INI file in UTF-8 encoding (you can use NotePad++ application for this purpose):

01-entrenamientoTactico.jpg="Combate antiterrorista"
02-entrenamientoDisparar.jpg="Defensa urbana"
03-entrenamientoPolicia.jpg="Seguridad Ciudadana"
04-seguridadyvigilancia.jpg="Vigilancia Privada"
05-RecursosNaturales.jpg="Recursos Naturales"
06-SeguridadIntegral.jpg="Seguridad y servicio al cliente"
07-AsesoriaConsultoria.jpg="AsesorÃ-as y ConsultorÃ-as en Seguridad Integral"

01-entrenamientoTactico.jpg="index.php"
02-entrenamientoDisparar.jpg="index.php"
03-entrenamientoPolicia.jpg="index.php"
04-seguridadyvigilancia.jpg="index.php"
05-RecursosNaturales.jpg="index.php"
06-SeguridadIntegral.jpg="index.php"
07-AsesoriaConsultoria.jpg="index.php"

Regards,
ARI Soft
