
ie7 problem on my site

Posted by atomoweb - 2011/09/15 21:15

Slider not working well, on ie7

<http://webkon.atomoweb.org>

What can be the problem, images don't load.

and if i add cufon script. it gives an undefined error, the images are shown but the bullets don't work.

Hello,

Download and upgrade the module. It should help.
