
I'm \"Clue - code - less\" help!

Posted by QuadMedic - 2011/09/20 19:30

Guys,

This must be the dumbest request yet, I've installed the image slider, configed the module ... but what "code, script" do I place in my article to get it to work? :P

Hello,

If you want to show the module in an article instead of module position, you can use "Content - Load Module" standard Joomla! plugin. More information can be found [here](#).
