## Can I link the images to different websites?

Posted by sbcoleman - 2012/02/18 20:59

---

I would like to enable links so if someone clicks on a pic it goes to a website

northamericandancealmanac.org

Hello,

Links can be defined in a CSV file. A link to a sample CSV file can be found in "Description" field on module settings page. It also contains how to use CSV file.

Regards,  
ARI Soft
