where in the code is the (black) background set?
Posted by Nicharee - 2013/03/12 15:35

_____

Hi, I need to change the background (black) color which is seen while the images load and also in some of the transitions.

I couldn't figure in Firebug where that sits in the code, can you tell me, please, so that I can change that?

Thanks

_____

Hello,

Use the solution from this post.

Regards,
ARI Soft
