
SLIDE SHOW IN CONTENT PAGES

Posted by Excalibur - 2010/11/05 12:29

Hi all

please could anyone tell me how I create a slide show for a content page. I have used this module in its own module location but haven't used it within a content page.

also how to I download updates?

Many thanks

Keith

Hello,

Extension comes with "Content - ARI Image Slide Show" plugin. Install and enable it. After this you can embed the module into an article just place the following code into an article:

```
{arislideshow moduleId="MODULE_ID"}
```

Where MODULE_ID is ID of "ARI Image SlideShow" module. Module should be enabled.

PS: The latest version of the extension can be downloaded in "Member Area" on our site.

Regards,
ARI Soft
