
Using .CSV File

Posted by dwayne.oliver - 2011/03/07 05:39

Hello,
I'm new to your product and I have a couple of questions about using the .csv file that I downloaded from your site.

1. When typing in file name do I include the extension (ex. image001.jpg)?
2. What directory to I upload the file name to? (can you provide the full path?)

Thanks

=====

Hello,

1. Yes, file name with extension should be placed into the CSV file.
2. Place CSV file into folder with images.

For example if you want to show images from directory /images/gallery/ and add titles for the next images:

image_01.jpg
photo_01.png

Place CSV file with the next content into /images/gallery/ folder:

```
"File","Title"  
"image_01.jpg","Test image"  
"photo_01.png","Another test image"
```

Regards,
ARI Soft

Re:Using .CSV File

Posted by admin - 2011/06/14 07:09

Hello,

What caption you mean? Do you want to display different titles for thumbnails in gallery view and in the lightbox?

Regards,
ARI Soft

Re:Using .CSV File

Posted by hishiro - 2011/06/14 07:12

yes perhaps, or just only in lightbox. thanks

Re:Using .CSV File

Posted by admin - 2011/06/14 07:27

If you use "Simple gallery" layout type and want to remove captions under thumbnails, set "Simple gallery -> Show caption" parameter to "No". If you want to show "Caption" field from CSV file as title for thumbnails, set "Simple gallery -> Caption template" parameter to {\$Caption}

Regards,
ARI Soft

Re:Using .CSV File

still not show my title.. :(what csv file that i should named?

Re:Using .CSV File

Posted by admin - 2011/06/14 08:08

Default name of CSV file is ariimagepopup.csv and it should be located in folder with images. If something doesn't work, could you provide link to page where we can see the problem and screenshot of module settings page or temporary access to your Joomla! backend by email?

Regards,
ARI Soft

Re:Using .CSV File

Posted by hishiro - 2011/06/14 08:16

already sent via email! thanks!

Re:Using .CSV File

Posted by admin - 2011/06/14 09:35

Try now please. We have found several problems:

1. CSV file name is case-sensitive so Ariimagepopup.csv and ariimagepopup.csv are two different files.
2. CSV file was saved in incorrect format. Header columns "File" and "Title" were missed.
3. Image file names are case-sensitive so Da,_Brush_Interdental_EL2-5p.jpg not the same as DA,_brush_interdental_EL2-5P.jpg

Regards,
ARI Soft

You can add new column to CSV file and then specify it in "Simple gallery -> Item template" or "Simple gallery -> Caption template" parameter in module settings.

Re:Using .CSV File

Posted by hishiro - 2011/06/15 08:03

can you give me an example?

=====

Re:Using .CSV File

Posted by admin - 2011/06/15 08:23

For example if you want to show different title under thumbnail and in lightbox, use the next CSV file:

```
"File", "Title", "Caption"
"image_01.jpg", "lightbox title", "thumbnail"
```

Set "Title template" to {\$Title} and "Caption template" to {\$Caption}

Regards,
ARI Soft

Re:Using .CSV File

Posted by hishiro - 2011/06/15 13:54

OK, still the same username and password from last time

=====

Re:Using .CSV File

Posted by admin - 2011/06/15 14:29

Try now. Your CSV had incorrect format. You can use OpenOffice application that edit and create CSV files.

Re:Using .CSV File

Posted by admin - 2011/06/15 15:06

Add the next CSS rule to site template CSS file:

```
TABLE.ari-theme-shadow TD,  
DIV.apopup-title  
{  
  text-align: center  
}
```

Regards,
ARI Soft

Re:Using .CSV File

Posted by hishiro - 2011/06/15 15:18

still confusing with this css template, since this template uses helix framework, but thanks anyway.. :)

=====

Re:Using .CSV File

Posted by admin - 2011/06/15 15:24

For example add it to /templates/shaper_simplicity_ii/css/template.css file.

Regards,

ARI Soft

where i should put the code? i attach the template file http://www.ari-soft.com/images/fbfiles/files/template_css-698765224d7086855491f88cd894025e.txt

=====

Re:Using .CSV File

Posted by admin - 2011/06/15 15:36

For example at the end of the file.

Regards,
ARI Soft
