404 Error in the lightbox for external flash site
Posted by INFINITE - 2013/02/27 21:19

_____

404 Error in the lightbox for external flash site... clicking from a picture.

Here is the website
http://infiniteautomation.com/index.php/dgulx/70-dglux-overview.html

Here is my code that I had to piecmeal together because there was nothing specifically for my scenario in any of your multiple pages on how to use the code/shortcodes

DATA CENTER{/col}
{col2}

I really appreciate your help and your product. It might make things easier if you had everything in one place with every way of using it.

Warmly
Dylan Elmgreen

_____

Hello,

It requires to use the following HTML code:

but it seems the page doesn't work when additional request parameters in the URL.

Regards,
ARI Soft

_____

Thanks for your response. I am not quite sure what you mean by
"but it seems the page doesn't work when additional request parameters in the URL."

This is our partners company, they have a website that has a lightbox of the flash site that we are trying to also light box to
http://www.dglogik.com/dglux/live-dashboards/datacenter

Flash site, not in the lightbox
http://demo.dglux.com:8080/ord?station:|slot:/ProphetTree/Prophet$20City/Data$20Center|prophetView:DataCenter%20template

Thank you
Dylan

_____

I am guessing you are talking about all of the extra items in the url.

do you think that we could find a different link to the site or should we upload the flash to our site and just load the lightbox content from our side?

Dylan

_____

It is not possible to show your Flash object with help of "ARI Sexy Lightbox Lite" because it is necessary to add extra parameters to the link, but the Flash object tries to parse them and failed.

Regards,
ARI Soft

_____

Ahh that would have been helpful, I've spent hours trying to get this to work.

In this page it shows makes it appear that it is a possibility as it lists a number of lightboxes that work and included in the list is
"Show Flash object in the lightbox "

However the lightbox doesnt work for it.

http://www.demo2.ari-soft.com/ari-sexy-lightbox.html?theme=old_white

Thanks for your help, I will come here quicker next time.

Regards
Dylan

_____

Would it be possible with ARI Colorbox? or anything else that you know of?

_____

"ARI Sexy Lightbox" can show Flash objects into the lightbox, but in case with your Flash object, it doesn't work because the Flash object is failed when additional request parameters are included into link to the Flash object.

We can extend "ARI Sexy Lightbox" (not "ARI Sexy Lightbox Lite") so it works without request parameters and show your Flash object fine.

Regards,
ARI Soft

_____

Could you please help me to adjust the code without the request parameters so that I can insert it to the site?

Thank you
Dylan

_____

The following code:

works fine for "System - ARI Sexy Lightbox" plugin from ARI Sexy Lightbox package.

Regards,
ARI Soft

_____

Thank you so much!

Wondering if you could help me with this code for this Vimeo video. Its activating the lightbox and seems to play (can hear the audio) but it visually isnt coming up with anything more than the lightbox and the border...
http://infiniteautomation.com/index.php/dgulx/70-dglux-overview.html

Deep thanks and I sincerely appreciate you all... I will be recommending you all.
