## Doesn't work on my site

Sexy Lightbox Lite works just fine on example page <http://www.demo2.ari-soft.com/joomla-lightbox-lite.html>, but doesn't work on my site:

[http://qsp.su/index.php?option=com\\_content&view=article&id=97&Itemid=64](http://qsp.su/index.php?option=com_content&view=article&id=97&Itemid=64)

I've cypypasted the code  
Show google site in popup

In Firefox (FF 3.6.2) it shows empty lightbox, and "Close" button doesn't work!

Please, help me to fix this.
