
Border around thumbnails

Posted by Xirtam - 2010/10/15 11:56

I use RokBox before but I must say ARI Sexy Lightbox works great.

As you can see on My Siteboth are still use by me.

Lightbox is used for the band Ivy's Dream.

Question: How do I get a border like with the other (RokBox) thumbnails on a thumbnail made by Lightbox?

Hello,

Add the following CSS rule to site template CSS file:

```
a.sexythumb img {  
    background:none repeat scroll 0 0 #FFF;  
    border:1px solid #CCCCCC;  
    display:block;  
    margin:-5px 5px 5px -5px;  
    padding:4px;  
    position:relative;  
}
```

Regards,
ARI Soft

That worked! The Tony Vega Band thumb is now also generated by Lightbox with using the code below.

I added the outline like:

```
a.sexythumb img {  
    background:none repeat scroll 0 0 #FFF;  
    outline:1px solid #CCCCCC;  
    border:1px solid #FFFFFF;  
    display:block;  
    margin:-5px 5px 5px -5px;  
    padding:4px;  
    position:relative;  
}
```
