_____

hello

and how can I show in a content all Photo Thumb like when we use the Ari Photo Galery as Module?

Thank you
Ricardo

Hello,

You can use "System - ARI Photo Gallery Anywhere" plugin for this purpose. If you want to embed "ARI Photo Gallery" module into an article, use the next code:

{ariphotogallery moduleId="68"}{/ariphotogallery}

or you can use the next code:

{ariphotogallery activeType="imglist" type="gallery" dir="images/stories"
imglist_simplegallery_itemCount="2"}{/ariphotogallery}

Regards,
ARI Soft
