
Permanently visible thumbnails

Posted by WoodyOnline - 2011/06/12 15:22

Is it possible within ARI Photo Gallery to have thumbnails permanently visible?
So it's not necessary to click on the "thumbnail squares" button. See the red arrows on the image below.

Hello,

Try to add the next CSS rules to site template CSS file:

```
.galleryThumbs
{
display: block !important;
}
```

```
.thumbsIcon
{
display: none !important;
}
```

Regards,
ARI Soft

Thank you very much for the response.
I've added the code, but it is still not working :(

Best regards,
Woody

Could you provide link to page where we can see the problem? Probably the code was added to incorrect file.

Regards,
ARI Soft

I've added the code to the site template CSS file.

location:

http://www.woodyonline.nl/timhagen/index.php?option=com_content&view=article&id=146&Itemid=77

Then click on the first image 'Kasteeltafel'.

I just checked again and it seems to work now.

I think it was the cache of the browser. I've deleted the browser history and now it's working fine! :cheer:

Thanks!

Kind regards,

Woody
